60's ROCK GROUP WORKING ON NEW ALBUM  
The Mustangs, a Popular 60's Band, Rocks Again

RIVERSIDE, CALIFORNIA – November 10, 2006 The Legendary Mustangs, a popular Southern California 60's rock band who regrouped in 2005 after a 40 year hiatus, is recording tracks for a new album. With a working title of "Covering the 60's," the group's new CD will include such 60's hits as "Nowhere Man," "My Little Red Book," "Pretty Woman," and "Badge." "Our goal is to capture the high energy that fans expect from our music," said Mustangs keyboardist Dennis Lisonbee. John Tavaglione, lead singer, added, "We chose a collection of songs that takes the listener on an eclectic tour of the 60's, from surf music right through the British Invasion." The Mustangs are known for their crowd-pleasing style of 60's Rock n' Roll: "The music made you want to shed those tuxes and gowns and go back to bobby sox and sneakers. Thank you, guys, for a great time and a very memorable and successful convention," said Larry Polhill, President and CEO of Help-U-Sell® Real Estate, regarding a Legendary Mustangs performance at his company's annual event at the Aladdin Hotel in Las Vegas.
